Project Work/Experience

Zomato Sales Analysis-· Analysed sentiment trends in 7,500 Flipkart reviews to pinpoint critical customer pain points; utilized findings to inform product development, enhancing features that increased user engagement ratings by 30% in subsequent releases.

Flipkart Review Sentiment Analysis- Conducted thorough analysis of customer feedback data, identifying top five recurring issues to enhance service delivery and improve overall satisfaction ratings by at least 15% within a three-month period.

Healthcare Cost Analysis-Analysed survey results with over 1,000 respondents regarding healthcare services; identified critical areas impacting patient experience that enabled targeted strategic improvements in service offerings within one quarter.

E-vehicle Market Size Analysis-Evaluated trends and consumer preferences in the electric vehicle market to uncover growth opportunities and provide strategic insights for stakeholders.
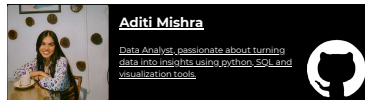

Company Sales Dashboard-Developed a sales dashboard using Power BI to visualize key metrics and trends. This project integrated data from multiple sources, enabling real-time insights that enhanced decision-making and drove a 15% increase in sales performance.
